

Start/Stop set CordlessControl, type I (630235000)

Order No. 630235000
EAN 4061792192669

Representative picture

- When starting up/shutting down the cordless tool, the connected mains-powered vacuum cleaner starts/stops automatically
- Compatible with standard cordless, mains-powered tools and vacuum cleaners available on the market
- Manual starting of the vacuum cleaner is also possible with the remote button at the coupling bush of the hose
- "Vibration detection" function at the transmitter permits automatic start-up/shut-down of the vacuum cleaner by detecting vibrations
- If the vibrations are too low, the transmitter can be connected directly to the extracting tool using the multi tape
- Multi tape to fix the transmitter to all standard hose diameters
- Start/stop cordless control replaces the function of the integrated power socket for a mains-powered tool

Technical values
