Order No. 601773000
EAN 4061792265455

Representative picture

- Automatic submersible pressure pump for garden irrigation and supplying other devices from lower-lying sources, such as wells or cisterns
- Powerful, 4-stage pump drive ensures constant, high pressure
- Floating intake on the surface of the water in case of sediment load can be installed quickly and easily
- Auto start: the pump switches on automatically when water is needed, then off again
- Up to 3 sprinklers can be connected to the pump at the same time
- Overload protection: protects the motor from overheating
- Integrated check valve reliably prevents water from flowing back into the pump
- Pump has a long service life thanks to a robust housing made of corrosion-resistant stainless steel, an integrated filter and high-quality mechanical seal
- Ergonomic handle for comfortable transport
