

## Circular saw blades "fibre cement cut", professional quality, for circular saws

- Especially for use in cement and gypsum-bound chipboards and fibreboards
- Very long service life and high cutting quality thanks to PCD teeth (polycrystalline diamond) compared to carbide-tipped standard saw blades
- Low noise development with fast sawing progress at the same time

Representative picture

| Diameter x cutting width x bore | Material | Number of teeth | Tooth shape | Steel blade thickness | Rake angle | Suitable for                                               | Packaging     | Order No. |
|---------------------------------|----------|-----------------|-------------|-----------------------|------------|------------------------------------------------------------|---------------|-----------|
| 160 x 2.2 x 20 mm               | PCD      | 4               | FZ          | 1.6 mm                | 5°         | KS 55 / KS 55 FS / KS 54 / KSE 55 Plus / KSE 55 Vario Plus | Cardboard box | 628287000 |
| 165 x 2.2 x 20 mm               | PCD      | 4               | FZ          | 1.6 mm                | 5°         | KS 18 LTX 57 / KT 18 LTX 66 BL / KS 18 LTX 66 BL           | Cardboard box | 628289000 |
