## Quality class A 36-T "Flexiamant Super" steel

- Universal disc for complete metal processing
- Hardness: hard
- Extremely high cutting output with good tool life by using special corundums
- Best results using powerful angle grinders
- Maximum working speed 80 m/s

| Quality class | Diameter x thickness<br>x bore | Version  | Maximum speed | Sales unit /<br>packaging unit | Order No. |
|---------------|--------------------------------|----------|---------------|--------------------------------|-----------|
| A 36-T        | 115 x 2 x 22.23 mm             | offset   | 13300 rpm     | 1 / 25                         | 616100000 |
| A 36-T        | 125 x 2 x 22.23 mm             | offset   | 12200 rpm     | 1 / 25                         | 616101000 |
| A 36-T        | 180 x 2 x 22.23 mm             | offset   | 8500 rpm      | 1 / 25                         | 616102000 |
| A 36-T        | 230 x 2,5 x 22.23<br>mm        | offset   | 6600 rpm      | 1 / 25                         | 616103000 |
| A 36-T        | 125 x 2 x 22.23 mm             | straight | 12200 rpm     | 1 / 25                         | 616107000 |
| A 36-T        | 150 x 2 x 22.23 mm             | straight | 10200 rpm     | 1 / 25                         | 616109000 |
| A 36-T        | 180 x 2 x 22.23 mm             | straight | 8500 rpm      | 1 / 25                         | 616111000 |
